

## XXL-Rehab Fat suit

Bariatric users - put yourself in their place to better understand their needs!

The Fat suit is made to use as a link, for better understanding and learning of the abilities when you are a big person.

When you put on the suit, you obtain a wide view of the mobility patterns, the restricted movement of the body and other issues related to a bariatric user that you never thought of before!

This gives a higher level of knowledge for staff who handle bariatric users and can help to improve their cooperation with bariatric users.

The Fat suit is particularly useful in connection with seminars dealing with transfer and knowledge sharing within the health sector.

The Fat suit comes with clothes and a carry bag.

### THIS PRODUCT IS USEFUL FOR:

The health sector · Caregivers working with bariatric users
